
GREEN CLOUD

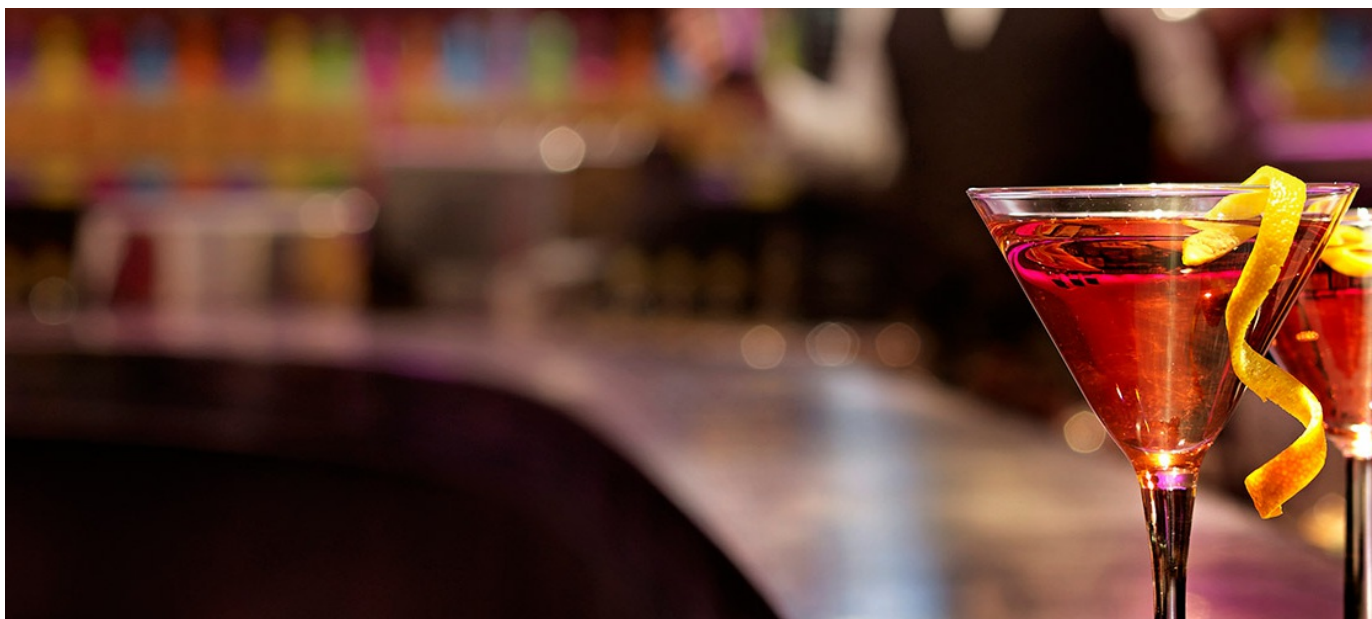

Alcohol-free

Cold

Long drink

INGREDIENTS

- Cream foam
- full-cream milk
- mint syrup 1883
- 12cl chilled milk

A hybrid of dessert and molecular drink, this cocktail is, in truth, a deconstructed mint milk that takes the breath away.

INSTRUCTIONS

Foam some milk with the mint syrup: dissolve a gelatin sheet in 30cl of milk, add 10cl of Mint Syrup 1883 and 10cl of liquid cream. Pour into a 500ml siphon, insert an N2O cartridge and leave to cool. Squirt the mint-flavoured milk foam into a tumbler, sprinkle with chocolate shavings, and top off with the milk. Serve with a large spoon.
